Software Engineer with 10 years at NETSOL Technologies building production enterprise web applications with React, Vue/Nuxt, Next.js, and TypeScript, from Figma handoff through deployment. Cut deployment time by 67% with GitHub Actions and Docker CI/CD, and development time by 25% through a Nuxt.js SSR migration. Extends into the backend and AI with FastAPI, PostgreSQL, JWT/OAuth, and RAG/LLM pipelines. Joined NETSOL through its disability-inclusion hiring program and earned a B.S. in Computer Science (2026) while working full-time.

Professional Experience

NETSOL Technologies, Pakistan **Jun 2016 - Aug 2026**
Software Engineer, Lahore

- Developed full-stack enterprise web applications end to end, from Figma handoff through architecture, frontend implementation, backend integration, testing, and deployment, using React, Vue.js, Nuxt.js, FastAPI, and Node.js.
- Reduced development time by 25% during NETSOL's corporate website rebuild by migrating to Nuxt.js with server-side rendering and a reusable component architecture.
- Cut deployment time by 67% (from ~45 to ~15 minutes) by designing CI/CD pipelines with GitHub Actions, Docker, and Vercel, improving release reliability and eliminating manual deployment steps.
- Improved frontend performance through state management optimization, code splitting, lazy loading, data caching, and REST API integration, delivering faster, more responsive enterprise applications.
- Shipped production features and resolved critical issues for a Malaysia-based clinic management system, working within a distributed team to improve reliability and user experience.
- Built secure backend APIs with FastAPI, PostgreSQL, and JWT/OAuth authentication, and contributed to containerized deployments with Docker and Kubernetes.

NETSOL Technologies, Pakistan **Oct 2015 - May 2016**
Internship Trainee, Lahore

- Designed digital assets, branding materials, and HTML email templates, and managed Mailchimp email campaigns for marketing initiatives.
- Learned web development independently and moved into the engineering organization, applying design and UX principles to user-focused frontend work.

Projects

AuraAi, AI Wellness Companion, Lahore, Pakistan, Link **Jan 2026 - Apr 2026**

- Built a production AI wellness companion in Next.js with real-time streaming conversations via the Google Gemini API, secure authentication, persistent history, and end-to-end Stripe subscription billing with webhooks and gated premium features.

Live Gold & Silver Prices, Lahore, Pakistan, Link **Nov 2025 - Jan 2026**

- Developed a Next.js production app delivering live gold and silver prices across six international markets, with full Arabic RTL localization, ISR for near real-time updates, and Sanity CMS for non-technical content editing.

Eden Avenue Management, Lahore, Pakistan, Link **May 2025 - Jun 2025**

- Developed a full-stack property management platform digitizing tenant–landlord workflows, with role-based access control, maintenance request tracking, and offline-capable PWA support for field staff.

AI Chatbot Platform, Lahore, Pakistan, Link **Jul 2025 - Sep 2025**

- Architected a multi-agent, tool-aware chatbot platform (FastAPI, PostgreSQL) that lets enterprises query internal knowledge bases conversationally, with multi-tenant isolation keeping each organization's documents secure.
- Built a Retrieval-Augmented Generation (RAG) pipeline with LangChain, document chunking, pgvector embeddings, and semantic search, grounding LLM responses in source documents to reduce hallucinated answers.

Core Competencies

Frontend: TypeScript, JavaScript (ES6+), React, Next.js, Vue, Nuxt, Tailwind CSS, HTML5, CSS3
Backend & APIs: Node.js, Python (FastAPI, Flask), REST APIs, JWT/OAuth, PostgreSQL, MongoDB
AI: LLM API integration, RAG, LangChain, agent workflows
DevOps & Tools: GitHub Actions (CI/CD), Docker, Kubernetes, Vercel, Git, JIRA, Figma, Agile/Scrum

Certifications

Namaste JavaScript **Apr 2024**
Front-End Web Development with React **Oct 2021**
Server-side Development with NodeJS, Express and MongoDB **Oct 2021**
Namaste DSA **Jun 2026**

Education

Virtual University of Pakistan, Lahore, Pakistan

- B.S. in Computer Science, 2021–2026 (while working full-time at NETSOL); Associate Degree in Computer Science, 2018–2021
